NEWSLETTER

EDITORIAL.

This month has seen a rise in press articles on the subject of the Roswell Autopsy and large number of photographs of the Alien. Malcolm Robinsons mag (See magazine review) ran an article from America that compared an earthly illness that left the people it claimed, looking similar to the alien body. The film gets good publicity this month, and in the next issue of the newsletter, I will be looking at the press coverage, and picking out the best bits (Or the worst bits). There seems to be an upward surge in both television and radio programs, not just on Roswell, but Ufology in general. Does this mean a change in the way people are thinking about the subject. We should grab this chance by the horn and work together. We are becoming split over the Roswell footage and just maybe this is what some people want to see, and thus the downfall of Ufology. We must stick together and work together and if a group or two goes under over the Roswell footage, then the rest of us **must** save Ufology for the future generations.

As I complete this newsletter, I have received a number of recent UFO sightings over the Southampton area, and a number of articles have appeared in the local press. Next month I will bring you up to date with the UFO activity.

The press was full with news items about the mystery skull found on Bodmin Moor and the fact that the Beast must exist. Well, sorry to say folks, that the skull that was found was in fact a wall mounted trophy. But it still didn't answer the question 'Is there such a thing as the Beast of Bodmin ?' I for one think that maybe the beast is in fact an escaped puma or leopard that has bread on the Moor over the years and has started to encroach onto farm land, because they find little food on the Moor's in certain times of the year and lambs and sheep are easy picking.

WHAT THE MEDIA HAD TO SAY IN JUNE 1994.

NATIONAL ARTICLES :

- 3.6.94 : Daily Express : Aliens take.
- 10.6.94 : The Oldie : Believe it or not, or neither.
- 18.6.94 : Daily Express : Supernatural.
- 26.6.94 : News of the World : I had UFO-oled !

CROP CIRCLE ARTICLES :

- 5.6.94 : News of the World : I'm top of the crops !
- 15.6.94 : Independent (The) : Wild things down in the cornfields.
- 19.6.94 : Observer Magazine : pop legend Presley is alive and looking for aliens in Andover. Reg Presley that is.

20.6.94 : Daily Express : Rock veteran Reg has his eye the stars.  
20.6.94 : Daily Mirror : I miss my daily diet of corn flakes. (Doug Bower).  
30.6.94 : Today : The Wild Thing from outer space.

24.6.94 : Audience told of alien visits to moor.

#### PRESS/TV/RADIO MATTERS OVER THE PAST MONTH 15.7.95 - 15.8.95.

##### PRESS :

16.7.95 : Sunday People : The Alien... and the film they tried to stop you seeing !

These amazing pictures - published for the first time - show an **ALIEN** at the center of a 50-year-old cover-up.

The weird-looking creature, almost human in form, lies dead on a mortuary slab.

Its spacecraft crash-landed on earth nearly half-a-century ago, according to **UFO** experts.

*The US military is reported to have recovered the wreckage of the spacecraft, as well as bodies of several aliens - one of which may have been kept alive for some time.*

But the authorities, fearing the public would panic if they knew the truth, imposed a security crackdown and denied the crash in the desert near a US Air Force base ever happened.

They said the wreckage, found at Roswell, New Mexico, in July, 1947, was that of a hot-air balloon taking part in a top-secret project.

But a 91 minute, silent black-and-white film of the event was shot and recopied by a military cameraman who hid it away for 47 years.

The grainy images show scientists examining a creature, looking like ET in the Spielberg film, laid out on a slab inside a tent guarded by military police.

British documentary maker Ray Santilli was given the secret film and gave it to Kodak to check it. And their experts confirm the film is 50 years old !

*Now more eyewitnesses are coming forward to swear that the extra-terrestrial event really happened.*

Next month the film of the postmortem examination and another showing close-ups of the space wreckage will be shown at a UFO conference in Sheffield.

#### 24.7.95 : Southampton Echo : Samples of earth may hold crop circle clue.

Pioneering research is being carried out by scientists seeking clues to the mysteries of crop circles in the South.

The phenomena are undergoing tests at the government Agricultural Service (ADAS), a Hampshire conference heard.

Boffins are investigating the theory that 'natural energy forces' cause the crop circles by studying the affected soil.

Scores of circles have been spotted in the UK this summer - with the highest concentration in Hampshire.

One 'asteroid belt' formation in wheat at Bishop's Sutton, near Winchester, incorporated 99 different circles.

Speaking at the Andover seminar, ADAS Plant pathologist Dr. Michael Foley said 'a soil constituent' was found in greater concentrations at the center of crop circles.

But he refused to name it for fear of hoaxers. He said 'if energy forces are affecting the plants, it seems quite logical the mineral particles would be affected too'.

He added they had eliminated pests and diseases as the cause of the phenomenon. The findings have been hailed a 'scientific breakthrough' by organizers of the seminar, the Center for Crop Circle Studies.

But Richard Smith, a Cornish CCCS official, believes some circle watchers will refuse to accept the scientific approach.

'everyone has their own opinion. But a lot of people would like it to be a UFO-type situation.'

Former Troggs star Reg Presley, from Andover, is among those who believe crop circles may be caused by alien spacecraft.

He recently pledged to spend a £1 million windfall from the hit film Four Weddings and a Funeral, which featured his song Wild Thing, on investigating UFOs.

27.7.95 : Southampton Echo : Did a UFO fly over ?

I would be very interested to hear whether any of your readers have information or personal recollections on the sightings of a UFO seen traveling Northwards over Southampton.

I believe this was at around 4am on a Saturday during 1961 or 1962 but would appreciate verification of the actual date and whether a satisfactory explanation was ever found ?

28.7.95 : The Sun : Is this an Alien ?

Again, this article looks at the Roswell film footage, but contained one or two interesting points :

Graham Birdsall, editor of UFO magazine, said : 'We've investigated the film - it's a fake and we intend to prove it. Why would it only come to light now ?.

But Philip Mantle, Director of Investigations at the British UFO Research Association, said : 'If it was a hoax it would have to be an incredibly elaborate one involving hundreds of people.. (Remember the Guardian footage....ED).

'Something would have been bound to slip out.

'This film has aroused global interest. The world will never be quite the same after it is screened'. (Well folks, there are still wars, death, famines , ecological mayhem and yet the earth is still the same... so much for the world not being quite the same.. or did I blink and miss it....ED !)

29.7.95 : The Times : Film of dead aliens adds fuel to debate over UFO.

This article concentrates on the actual Roswell story and not too much on the actual autopsy film footage. Also, Dr. Chris Stringer, of the Natural History Museum in London, finds it incredible that an alien evolving on another world would look so human, and extraordinary that the post-mortem examination, 'an unparalleled opportunity for science' was apparently conducted so quickly and casually. The filming was also amateurish, with all shots of internal organs out of focus.

29.7.95 : The Independent Magazine.

Article takes a look at the government's farming advisory service, that is investigating the subject of crop circles and there is a look at the work that Lucy Pringle, who is the vice-chairman of the Center for Crop Circle Studies, with her bottles of water placed in the earth in the center of the formations.

30.7.95 : The People (Yes Magazine) : It glowed white in the night sky.

An interview with Philip Mantle with a life history of his involvement in the field of Ufology. And guess what... The Roswell film was not mentioned at all in the article. Philip failed on this occasion to publicize the film footage.....ED.

### 8.8.95 : Southampton Echo : Skeptic : I faked crop circles.

University researcher Dr. Robin Allen has admitted faking crop circles. The arch-skeptic's confession came days after the Hampshire National Farmers' Union offered a £1,000 reward for information leading to the prosecution of a hoaxter.

Dr. Allen, a research fellow in theoretical physics at Southampton University and a leading light in debunking group the Wessex Skeptics, refused to say where he had created circles using a 'stomper'.

He Said: 'It's just a plank with a rope and it has resulted in several formations which have been authenticated as genuine by experts'.

Michael Green, of the Center of Crop Circle studies, accused Dr. Allen of faking large numbers of formations.

But he added: 'It's quite clear that there is a non-human intelligence behind the genuine phenomenon'.

He claimed a circle at Cowdown, near Andover, in the shape of a lightning strike, was the genuine article.

Mr. Green and his colleagues recently unveiled evidence of what they called a scientific breakthrough. Researchers for the Agricultural Development and Advisory Service claimed to have uncovered evidence that natural energy forces were responsible.

### TELEVISION :

#### 1. 20.7.95 : Mysteries,Magic and Miracles :

This concerned itself with the area that we know also the Warminster Triangle and the secret energies in the area. Reg Presley featured in this item, but he told us nothing that we had not heard from other people before.

#### 2. 23.7.95 : Mysteries,Magic and Miracles.

This item featured Tony Dodd (Quest International) & Bob Dean and concerned itself with looking at the cover-up angle of Ufology. An interesting item, that run for about 15 mins.

#### 3. 29.7.95 : Mysterious Forces Beyond.

This program concerned itself with Mystical Places and earth Energies and mainly featured Paul Devereaux. If earth energies is your cup of tea, then this was well worth taking a look at.

#### 4. 30.7.95 : Mysteries,Magic and Miracles.

The Face on Mars were a feature in this program and again, we did not learn much more than we really already knew. If this is your cup of tea, then it was well worth a look at.

#### **5. 5.8.95 : Mysterious Forces Beyond :**

This item concerned the Philadelphia Experiment and I am afraid I actually missed this one, as I was returning from holiday when it was on. It Featured Jacque Vallee and if anyone else happened to record it, could your editor borrow it to take a look at.....

#### **6. 6.8.95 : Mysteries,Magic and Miracles. Crop Circles.**

I nearly cried over this program with laughter as it was the biggest load of c\*\*\* I had seen on the subject in years. It featured Peter Sorensen who showed an aerial picture of the Webb formation and he wondered at its marvel and the fact it was created over two days. We all know this formation was a hoaxed one, yet he portrayed it as the best thing since sliced bread. He also featured numerous other hoaxes ie the charm bracelet and a few other hoaxes. Well, the Americans probably enjoyed it and it was a big con as far as I am concerned.

#### **7. 9.8.95 : Magic and Mystery Show : Crop Circles.**

Featured Barry Reynolds (American Project). Bending/exploding Nodes, micro wave energies and spinning vortex's... All old hat...and nothing new.

#### **RADIO.**

#### **27.5.95 : Talk Radio UK... Radio phone-in about The Roswell film.**

I only managed to record about 30 minutes of this program so I cannot really comment on it only that what I have on tape consisted of the same old thing and really nothing new. If anyone did record the full program, then please could your editor borrow it to copy.

#### **MAGAZINE REVIEWS :**

##### **1. CENAP Report. No 223 and 224.**

If you can read German, than this is the magazine well worth considering to enhance any ones Ufological collection. Werner's magazine is packed with sightings from all over the world and not just Germany. There are special reports, news, views and information to keep you engrossed for hours. For more information, contact : Mr. Werner Walter, Eisenacher Weg 16, 68309 Mannheim, Germany.

##### **2. Circle Hunter No 16 7/95.**

In this edition, there is a look at Scorpions and Quintuplets : The 1995 Crop Circle Season, Photographs of the 1995 Circle season, Crop Circle Theorems and much more. For more details, contact : Anthony Horn, 23 Sea View Drive, Scarborough, N. Yorkshire. YO11 3HY.

3. Strange Daze. No 6 July 95.

This packed edition looks at UFO cases from the North-East of England, An interview with Ray Santilli by Philip Mantle, A look at the Roswell film, Book and magazine reviews and a whole host more. For more details, contact : Mr. D.Newton, 9 Broderick Close, Kenton, Newcastle Upon Tyne, NE3 3SG.

4. Enigma. No 41 Aug/Sept 95.

I always enjoy Malcolms magazine, and this edition is of no exception. He is involved with local Tv stations and has a number of research cases included in the edition. There is an investigation into a ghost story and a massive magazine review. (If there is a magazine on the subject of UFO's, then Malcolm reviews it in this edition..). There is an article that looks at the Roswell autopsy and photo stills, and it seems that there is a rare disease called Progeria (Hutchinson-Gifford Syndrome), that effects only one in every four to eight million births. Malcolm produces a picture of someone with the illness, and I must admit, I can see why there has been a comparison made with the disease and the alien. For more details of Malcolms magazine, contact : Malcolm Robinson, 41 The Braes, Tullibody, Clackmannanshire, Scotland, FK10 2TT.

5. Spiline. July 95.

This edition is a mixture of local sightings (Portsmouth and surrounding area), advanced alien cultures, Russian UFO encounters, Majestic 12, Crop Circle investigations and a whole host of other articles. For more details, contact : Bob Schindler, on Portsmouth 01705 611437.

6. Deguforum. Nr 6 July 95.

This is one of the other German groups that I exchange material with and like the others it is in German. This edition looks at recent German reports, The alleged Roswell Alien footage, book reviews and a lot more. For more details, contact : DEGUFO, Postfach 2831, 55516 Bad Kreuznach, Germany.

7. OVNI. July 95.

Omar Fowler produces one of the only other monthly newsletters and as ever, it is packed with news, views, sightings and information. This months in no exception, and Omar kicks off with a look at the 1995 crop circle formations, UFO seen in my neck of the woods over the Devil's Punch Bowl near Winchester, Hampshire, A UFO report from Guatemala and lots more. For more details, contact : Omar Fowler, 94 The Circle, Sinfín, Derby, Derbyshire. DE24 9HR.

8. **UFO World Journal.** No 9 1995.

Edward Harris's magazine is a mixture of press items, reviews, letters and items grabbed from other magazines and newsletters. There is a look at the Roswell alien autopsy..(Yawn.. Yawn.. Yawn.. ED), UFO propulsion systems, Press cuttings, and a lot more. For more details, contact : Edward Harris, 16 Newton Green Great Dunmow, Essex, England. CM6 1DU.

9. **Crop Watcher.** No 25 Spring 95.

As every, Paul Fuller's magazine dares to tread where other magazines fear to go and I or one support Paul in his work. This edition takes a look at the Arthur C.Clarke's Mysterious Universe documentary ' A Crop of Circles ', The Collapse of the 'First International Crop Circle Conference', The Alien Energy Debate and of course that film footage that is on the of the tongue...Ummmmmm.. Oh Yes The Roswell Alien Autopsy (I feel that you the reader must read this article, as Paul leaves no stone unturned.. For more details, contact ; Paul Fuller, 3 Selbourne Court, Tavistock Close, Romsey, Hampshire. SO51 7TY.

**NEWSLETTER SUBSCRIPTION DETAILS.**

The Newsletter consists of no less than 5 double-sided A4 pages. Also, newscuttings that may be of interest to the reader. In the Summer months, around April, an extra page is included to cover any crop circle news.

The Newsletter costs £5 per year (Including Postage) and is

\*\*\*\*\* **MONTHLY** \*\*\*\*\*

**FDR SIGHTING PART 3 - THE OFFICIAL VIEW.**

Continuing with this fascinating story, I will take a look at the replies that Mr. Grusinski received from a number of agencies, including the C.I.A, Dept of the Navy, Vice Admiral J.T Hayward USN (Skipper of the FDR in Rio), The Executive Officer USS Roosevelt and the National Security Agency Central Security Service.

On the 21 March 1978, A letter received from C.L.Burbage, Executive officer USS Roosevelt. I regret that I cannot glamorize such an incident as it would undoubtedly make for good reading and further lend credence to the theory of flying objects. However, I know of no such happening during the shakedown period at Guantanamo Bay or at any place. I was aboard for the entire period and am sure I would be aware of such an incident had it happened.

On the 30.5.80 Chester received a reply from the C.I.A : There is no organized Central Intelligence Agency effort to do research in connection with the UFO phenomena, nor has there been an organized effort to collect intelligence on UFO's since the 1950's (What about the pre 1950's...ED). Since then there have been sporadic instances of correspondence dealing with the subject and the receipt of various kinds of reports of UFO sightings.

The agency interest lies in its forewarning responsibility. This interest is principally in the possibility of a hostile power developing new weapon systems which might exhibit phenomena which some might categorize as an UFO. There is no program to actively collect information on UFOs. (Oh well, that seemed a good idea at the time and nothing learned from the C.I.A... ED)

Then on the 1.8.80, Chester received a letter from the Department of the Navy :

The logs of the USS Franklin D.Roosevelt (CVA 42) have been searched for the period from 1 September through 31 December 1958. No entries were found relating to any UFO sightings at any time during the above period.

Regardless of the absence of any entries concerning UFO sightings, copies of the above logs will be provided if desired.

On the 12th July 92 Vice Admiral J.Hayward, USN (RET) wrote to Chester :

Yes I was skipper of the FDR in Rio but have no knowledge of any UFO sightings. I cannot locate any such reports but will check on my next visit to the Navy Historical section in the navy year in Washington that has all the FDR's log books for its life time.

On the 3 November 1992 Chester received a reply from the National Security Agency : Following an application to the National Security Agency under the Freedom of Information Act and the subsequent appeal letter, the office of Policy conducted an adequate search and that NSA has no record responsive to your request.

Its seems rather strange to me, that the crew of an aircraft carrier reported seeing a UFO, yet no entries were made in the ships log. Surely, such an object should of been tracked and the appropriate authorities notified, and therefore the captain would be aware of such a report. The sighting will never be laid to rest, as there were a large number of witnesses, and someone, somewhere must have the evidence to back-up the sighting.... (Steve Gerrard...Editor)

## THE WHEATEAR'S JULY CROP CIRCLE UPDATE.

This is the July update for Crop Circles. It has turned out to be, as usual, the busiest month for circlemakers and fakers with Hampshire being at the center of most activity. Many of formations were reported late, often up to nearly two weeks after their creation, making a decision on its genuineness almost impossible. In Dorset, there have been formations, however the C.C.C.s convenor is rather protective towards anyone outside Dorset finding out about their whereabouts. This was a problem last year. Never the less, I will try to give you a picture of the last 4 weeks activity in the crop circle world.

On July 2nd, I planned a night watch of the Cheesefoot Head area near Winchester (Hampshire). I was sure that the famous PunchBowl was a prize site and very soon something was going to appear. I inspected the formation on Longwood warren Estate not far away, when I was caught out by a torrential downfall that soaked me and I had to call it off. I returned home wet and fed up. I was unable to do a night watch the following night, the 3rd, so I planned one for the 4th (Tuesday night). I arrived at the Punchbowl around 7.30pm and to my big disappointment, a huge formation was staring back at me. I was so close to its creator. I felt certain it was of human origin, despite not even entering it as yet. I knew it was made the previous night also. After a quiet night watch, I began to enter the field at 5am, to confirm my feelings of it being a hoax. I have to tell you that it was indeed man/men made as there were broken stems, footprints and construction plans were easy to detect. It took up a lot of field although the amount of crop laid (Oats) (And not Wheat as many other magazines have reported... ED) was relatively small. It was a large but thin ring with half circles attached on the outer and inner walls of the ring. In the center, was a 20ft (Approx.) circle with a ring around it. Dissecting the large ring was a smaller ring with thought bubbles coming off it. To me, it looked muddled.. The two main features, the big ring and the thought bubbles simply didn't go well together. I spoke to Lucy Pringle of the C.C.C.S about this matter and she agreed with me. it just didn't work and there was an imbalance in its appearance. This was the closest I had been to catching a hoaxing team.

Around the 7th July, 7 circles in a petal style formation was found South of Newbury by the A34. It was about 200ft across and was well received by those who inspected it. On the 12th July the Quintuplet formation on Telegraph Hill, Nr Winchester was cut along with the rest of the field. This one I feel was the trigger for the Hampshire explosion, Why ? On the 13th July hoaxers hit the Punchbowl again. A huge 200ft 'Stickman' with the words 'LE TIS FOR ENGLAND' engraved roughly in the Oat's (Matt Le Tissier plays football for local football club Southampton and fans want England manager Terry Venables to sign him up). On the 14th July on Meridain Tv, a group called the 'Valley Slags' released a single about 'Le Tiss' is England squad potential. The manager of this delightfully named band was quoted as saying about the 'Footballagram' at Cheesefoot, 'I think it's the Aliens, they obviously know something Mr. Venables doesn't' with tongue firmly in cheek ! More suspicious is the fact that the lead singer of 'Valley Slags' name is Richard CHORLEY, and along with the name BOWER, maybe some readers can see a connection. Is Richard Chorley and Dave

Chorley related ? Father and son perhaps ? Did dad pass on some tips to his son ? The letters P.R. About 30ft long, were added below the first formation in the Bowl around the time of the Stickman's making.

Hampshire still had the most activity with a number of formations around the Andover area. Other places hit were Burghclere 12.7.95, on the Andrew Lloyd Webber estate (Could this be the start of the first Crop Circle musical..?). Goodwood Clatford, Alton and three around the west Meon area all quickly appeared or were discovered around the middle and last half of the month. On the 19th July I visited, along with Steve Alexander, (Milk Hill UFO film) a newish formation near Sompting in Sussex made on the 15th. It was a large 6 ring circle with the center off centered as it were, clever and attractive, but a hoax I feel sure. We met Andy Thomas from the keen Sussex branch of the C.C.C.S and together we went to a few formations near Shoreham on the coast, which although a week + old, a photo would be possible at least. The formation consisted of a dumbbell, a clover leaf, and a 15ft triangle. I went into these 3 and gave them a quick look. The heat was stifling around this area and everywhere were ladybirds and it felt like the summer of '76. Upon returning home, my temperature rocketed to 104 degs and I was very ill with what turned out to be a viral infection for 5 days, causing a backlog of circles to go unchecked.

This period also saw many circle's appear causing me more than a headache. However, on the 27th July, I visited one of 3 near West and East Meon, at a place called Eastend. Just outside West Meon was placed a 120ft (Approx.) circular formation and from a distance it looked to be 5 or 6 rings, but turned out to be only 2 complete rings. The remaining were incomplete rings, as they came to a point a few feet away from joining. When I first arrived, Paul Vigay, editor of the 'Enigma' newsletter and circle investigator from Canada Chad Deetkin and his wife were inspecting it and Paul liked the formation. Within the laid crop, one could find many stems with the nodes of the wheat burst open and blackened, as if microwaved or brought to boiling point, resulting in its rupture. I could not find any others anywhere outside of the formation. This curious phenomena has been observed before and it appears no one is too sure why this occurs. Could it be the strong sunlight along with a variety of chemicals, the crop is subjected to, creates this damage on the photo sensitive nodal point. I have only seen this a few times, and I find it intriguing. Not far here, a place called Exton, another formation came and went. The farmer wanted to keep it quiet and since it was visible only form the air, or when almost in it from ground level, this one was missed by myself. I am sure a number of other formations as usual, have gone unnoticed. At Winterbourne Bassett, North of Avebury, a ring with a triangle with in it, which also had squares at the 3 points, was found. The dates to most of these formations are as I mentioned earlier, vague.

So, I am sorry about this, however for the dedicated, I would grab a copy of the 'Circular' during the winter months for dates and a more in depth catalogues of circles in the UK. Finally, one small pictogram appeared near Brockwood Park, North West of Warnford, Hampshire on the 25th July. It was almost on the same site and made around the same date, as the one that appeared there last year. Last years was found in Oats, this year the field was sown with Wheat. Both, I am sure were hoaxed. half a mile away in barley, I found a very small double ring, which had within the same field a similar rougher formation to the one at Eastend, West Meon. Was this the prototype for that one ? Did barley seem messier, so a wheatfield was chosen ?

The West Meon site is only a mile or two away after all a dumbbell was made here last year for an I.T.N report. South of this on Wheely Down, I found a small petal formation which was encircled by a ring, I found this on the 30th July and briefly near Roundway Down scene of a bloody battle during the 17th century civil war a large double ring circle was found which had two circles within it. A very old circle was found near Pewsey, Wiltshire, as was a 30ft telephone receiver looking formation near Whitchurch train station, Hampshire. Towards the end of July/ early August the fields down the stone avenue at Avebury had two formations pop up, one was a ring with a Taurus symbol within it and a C-SETI symbol appeared nearby, made of a circle of triangles. Opposite Silbury Hill, a plain 40ft circle was found around mid July.

Due to heatwave, the country has been enjoying, the crop's are ripening fast and soon it will all be over for another year. I will give my conclusions of this years activity when the season is over.

### The Wheatear.

"THE UFOLOGY WHO'S WHO" © B.M.KING 1995

#### ATTENTION ALL UFO RESEARCHERS

I AM COMPILING A DOCUMENT THAT IS TO BE PUBLISHED LATER THIS YEAR, A SIMPLE TO USE REFERENCE BOOK THAT LISTS IN DETAIL EVERY UFO RESEARCHER WORLDWIDE, A PHOTOGRAPH WILL COMPLIMENT THE TEXT DETAILING EACH RESEARCHERS ACTIVITIES, PAST AND PRESENT, IN THE FIELD OF UFOLGY.

AT LONG LAST RESEARCHERS WILL HAVE A REFERENCE BOOK AT THEIR FINGERTIPS WHEREBY THEY CAN ACCESS THEIR CONTEMPORIES, THEIR PEERS, INSTANTLY, SEE WHO DOES WHAT AND WHERE.

THIS IS OBVIOUSLY A BIG UNDERTAKING, ONE THAT WILL REQUIRE THE TIME AND ASSISTANCE FROM EVERYONE IN THIS FIELD OF RESEARCH, BUT THE END RESULT WILL BE WORTH ALL THE TIME AND HARD WORK.

THIS NOTIFICATION IS BEING SENT TO AS MANY UFO MAGAZINES AND JOURNALS AS POSSIBLE IN ORDER TO GET THE REQUIRED RESEARCHER RESPONSE.

IF YOU WISH TO BE INCLUDED IN THE 1995 "THE UFOLOGY WHO'S WHO" PLEASE SEND TO THE BELOW ADDRESS THE FOLLOWING DOCUMENTATION:

- 1: A CURRENT OR RECENT PHOTOGRAPH OF YOURSELF
- 2: A DETAILED RESUME OF YOUR INVOLVEMENT WITH UFOLGY  
( DATES,ORGANISATIONS,WHEN FIRST BECAME INVOLVED, ETC,ETC..)
- 3: FULL DETAILS OF NAME, ADDRESS, PHONE NUMBER, QUALIFICATIONS, TECHNICAL SKILLS, ETC,ETC.
- 4: DATE OF BIRTH AND COUNTRY OF ORIGIN.

THE CO-OPERATION OF SERIOUS RESEARCHERS IS REQUESTED IN THIS VENTURE, PLEASE CONTACT THE COMPILER AS SOON AS POSSIBLE WITH YOUR DETAILS.

MAY 22ND 1995

### UNIDENTIFIED FLYING OBJECTS

The Chelmsford Branch of London UFO Studies are staging a series of public meetings in the Chelmsford area. Why not come along?

All meetings run from 7pm to 11pm, all feature video and static materials plus discussions.

Entry to all meetings via £4 ticket available from the Chelmsford Branch Chairman.

For further details on these meetings or indeed on membership please contact the Chairman on the 24 hour hotline number: 01245 346038.

Come and see for yourself the world of UFO's, Aliens, Abductions, Crop Circles, etc, etc. We guarantee an interesting and eye opening time!
